To all the co-creators of this letterform letter, here's how I envisioned it:

Create your ~~letter~~ without lifting your sharpie from the paper.

Instructions *Letter Captain:* write down a simple rule for participants to follow as they design the letterform. Example: "Use only curvy lines. The curves may never cross." *Letter Participants:* follow the established rule to design a portion of the letterform using the provided Sharpies. After you complete a small portion, sign the page and then pass the letter to the next person to work on. The 10th recipient should complete the letter. Turn the finished letter in for scanning and sharing.

AMERICAN SPIRITS

To all the co-creators of this letter, here's how I envisioned it:

This must be in line with urban yeti culture.

...Letter Captain: write down a simple rule for ...er participants to follow as they design the letterform. Example: "Use only curvy lines. The curves may never cross one another." Letter Participants: follow the established rule to design a portion of the letterform using either a fine or ultra fine black Sharpie. After you complete a small portion, pass the letter to the next person to work on and so on. Once the entire letter is complete, return the letter to the Letter Captain. The Letter Captain should then refine the final letterform using the available tools (Liquid Paper and white tape).
